## Setting the time on your BioTime Plus system

- Press M for management mode.

- Place your supervisor's finger or on the reader.

- Using the arrow keys move to Setup, and press OK.

- Then using the arrow keys again move to System, and press OK.

- Then finally move to Time, and press OK.

- Then the arrows keys will change the date and time fields, the OK button will move to the next field.

- When finished press the C button to exit and the system will ask Save Yes or No? Press OK to finish.

- Once the time is set, press the C button until the terminal returns to normal operation.
